New York Stock Market

New York, April 1.—Gains of 1 to 3 points were well distributed among the standard stocks to-day. The market was the broadest and strongest of several weeks, both the speculative favorites and the standard investment atocks sharing in the rise. New high prices for the rise, which began more than a week ago, were established.

Traders were influenced by the resistance of the market recently to unfavorable news. The death of J. P. Morgan yesterday and flood news of last week proved of little effect on the list, and indications were that the market was oversold. A great source of strength was European buying. Fonnsylvania's February reports showed a gain of nearly \$1,500,000 in total operating revenue, but a rise in expenses of over \$2,000,000, so that net carnings decreased \$534,000. New York Central reported a net gain of \$864,000.

Bonds were strong. All United States bonds declined, losses running from 1/6 to 7/4 on call. Total sales to-day, 494,500 shares.
